

EVAVO SPA Development – World Class Consulting & Equipment + + Workmanship

THE EVAVO steam generators are precision engineered and have the highest distinction of passing the CE test in United Kingdom (not china) leading certification body Nemko UNITED KINGDOM and one of the only exported to German market

When you Partner with Evavo You don't get just Top Quality Equipment but Importantly Valuable Consulting, and Design Advice MEP and Precise Workmanship !!

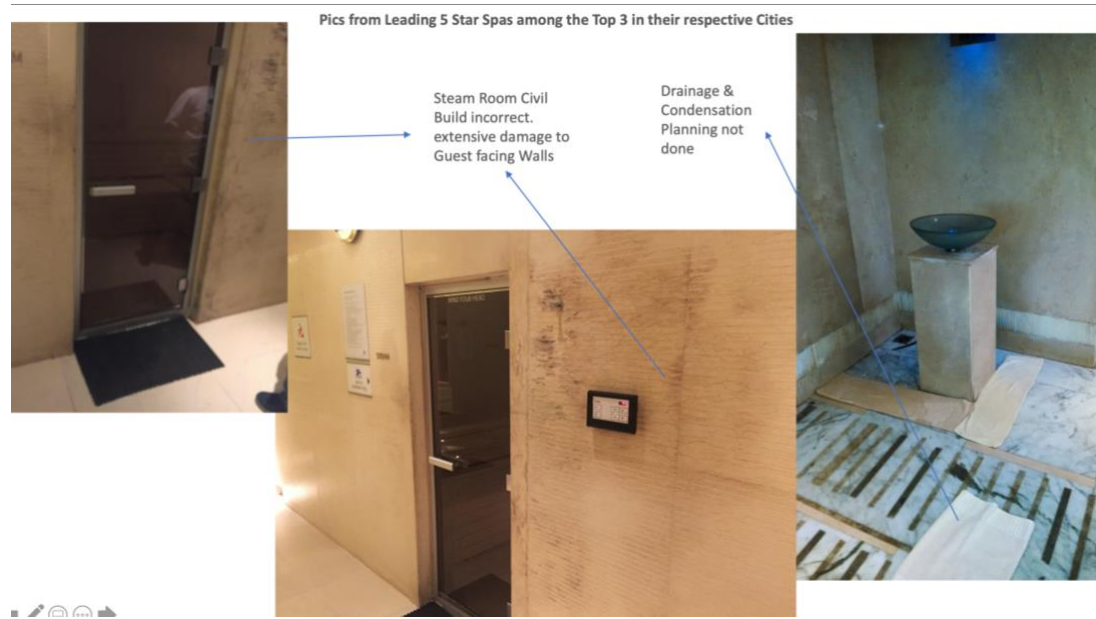

We don't just supply equipment we help you design the Complete **FUNCTIONAL & SAFE** Steam bath

- ✓ Inputs for Detailed **Material Selection and Vapor proofing** required to avoid dampness on Walls, Steam LEAKAGE
- ✓ Detailed inputs for Finishes, Hardware, Ceiling Design and Material
- ✓ **Critical MEP/Services** planning and Drawings for equipment and steam room
- ✓ Location & Ventilation planning for **Steam Longevity & Easy Maintenance**
- ✓ IP67 **Emergency alarm** system for Guest Safety and Machine Cut-Off
- ✓ **SteamLeakage n Condensation** Run Off planning for entire Room & Outside passage etc

- ✓ **Steam Proof Finishes** for Floor, Walls, Bench, Ceiling
- ✓ **Doors** Detailed specs for Steam leak proof Door system
- ✓ Equipment **certified and developed for 4/5 star** hotel spa standards
- ✓ **Choice of Budget** and Premium equipment

EVAVO SPA Development – World Class Consulting & Equipment + + Workmanship

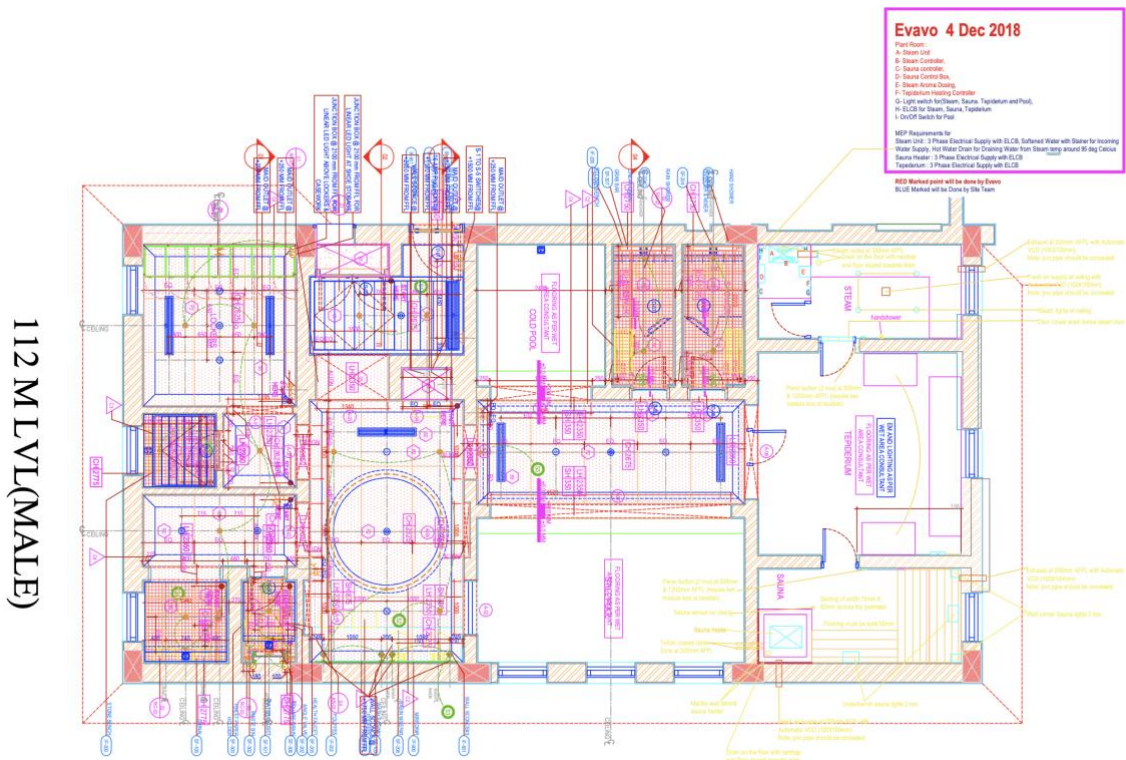

With Evavo Design and Planning You can avoid such Costly mistakes and YOUR BENEFIT : LONG LASTING , EFICIENT, LOW MAINTENANCE STEAM BATH

OUR EQUIPMENT

Hygromatik, Tylo or Evavo brand OEM Steam Generator is the Industry's first choice for High Quality and Superior Safety and Easy Maintenance and Long Life. In fact Hygromatik it is rated as the **Rolls Royce of Steam generators**

SOLID BUILD An extra **heavy duty** and robust steam generator manufactured in a stainless steel case using top quality **Teflon coated INCALLOY I 800 elements** in a new single loop design that when combined with additional electronics will **give longer trouble free working life.**

SAMPLE MEP & STEAM PLANNING DRAWING

SUPERIOR STEAM CONTROL PANEL Electronic controls: the control panel with a digital display to enable temperatures of 30 to 60 degrees centigrade and time duration 15 to 240 minutes or continual operation with additional keys for a steam room light, keyboard lock, manual drain-down etc.

Safety features: include boil dry protection, thermal overload safety cut out and pressure relief valve

EVAVO SPA Development – World Class Consulting & Equipment + + Workmanship

New Advanced Steam In Demand Function (optional) - the water in the steam generator is held at around 80 degrees until the steam on demand button located inside the steam room is pushed by a customer - a red LED inside the button will light and steam will be delivered to the steam room within a few seconds, it will continue for up to 30 minutes, after which the red light will go out and the steam will stop until the button is pushed again - **saving energy and costs during quieter periods of operation** (*recommended for commercial areas with intermittent use*).

Auto Descaling: All generators feature an auto drain down with a self flushing cycle to dump the generator contents in a controlled manner - at the end of each steaming session the generator will stop for a few minutes to allow the water to cool a little then the drain valve will open and after a short time the cold water inlet valve will open to give a period of continuous flushing and draining. Flushing and draining the generator reduces the build up of damaging limescale, cooling the elements before the final drainage **helps prolong their useful life**.

ENERGY SAVINGS: Each generator is fitted with 3 banks of heating elements to provide sequential heating - from cold all 3 element banks operate for maximum power and rapid heating until the required temperature is reached then banks 1 and 2 stop while bank 3 alternates on and off to gently maintain the temperature without large fluctuations saving energy and improving user comfort

FOR COMMERCIAL steam generators: All of our commercial models feature a bright red high visibility steam inlet nozzle, multiple generator control (2 or more generators can be linked together for larger steam rooms,)

Easy Troubleshooting: generators feature an advanced electronic control with on board diagnostics having a series of LEDs Diagnostics to show each operation of the generator we have special frame, easily for maintenance

CLIENTS USING OUR Equipment:

LEADING HOTELS: St Regis, Hilton Shillim, Accor Novotel, and Accor Grand Mercure.

DEVELOPERS: Lodha, Panchshil, Rustomjee, Kanakia

SPAS n SALONS: Six Senses, Warren Tricomi, Loccitane Palms Spa,

RESIDENCES: Adani, Birla, Jindal etc

Our Technical Consulting: **IN INDIA OVER 90% of steam bath have major operational and maintenance issue** because the Civil, Interior , HVAC, Vapor proofing, Interior design/ material, Plumbing has not been designed to International Steam room standards. THEREBY Incurring major Guest problems and heavy renovation costs See Link for some photos

We are NOT JUST a Steam Equipment vendor. We are the only company in our category to be engaged as **PAID SPA WET AREA CONSULTANTS** by **Ritz Carlton, Six Senses, Marriott, Hilton, Panchshil, Lodha, Talathi Panthaky.**

EVAVO SPA Development – World Class Consulting & Equipment + + Workmanship

When you buy a Evavo Steam you GET **COMPLIMENTARY detailed & INVALUABLE INPUTS** in master planning for steam, Layout, Equipment room, Civil Works , Steam proofing, Interior finishes, CEILING & DOOR Critical Requirements, Hardware and Shower Fittings, Steam specific HVAC, Health Grade Plumbing, Steam PANIC ALARM , Electricals

Our Workmanship: We use workmanship and Method statements comparable to worlds premium SPA specialist contractors
